## The path to the goal

When you master previous exercises, if you have not already started, it is time to study the rules, signs to understand how to act together with mother road users

Durgés recommend Körkort nu med elevcentralen. Now the tempo increases
Study how to run these steps safely:
High-speed roads
Right and left hand turns on country roads
Turn around on roads at a high pace
Accelerates quickly and on how to overtake

Train until you can handle the steps independently.

Theory and driving test at Trafikverket

START

Introkurs If you have in mind to practice-drive under private arrangements

Learners permit

Start with these exercises.

Driving position
Creeping and steering
Changing gear and braking
Start on slopes
Park by reversing and driving into parking spaces
Turn around with the help of crossings
Reversing around corners
Effective / panic brake

You run these exercises in calm environments and in parking lots.

Time for risk training
The idea with these educations is
that they are carried out in the final
stage of the education

When you have read about:
Give way rules
How traffic lights work
How to position yourself before intersections
How roundabouts work
How to look around when to change lanes
How the system of following signs works

It's time to practice these steps
until you are able to cope independently with
the situations that arise.
